# PATIENT RIGHTS

## Patient rights include:

- The right to receive a copy of the Notice of Privacy Practices
- The right to request confidential communications
- The right to request a restriction on the use and disclosure of PHI
- The right to know that the covered entity is not required to agree with the requested restriction unless the request is for a restriction of information to the health plan for a service or item which the patient pays for out of pocket, with no health plan involvement
- The right to inspect and copy the PHI
- The right to request amendments and corrections to the PHI
- The right to request an accounting of PHI disclosure

These are included in the Notice of Privacy Practices. Most require the patient to express their requests in writing. Forms for those requests are in this section of the manual. Providers have the authority to deny certain requests based on professional judgment.

## Confidential Communications

Patients may request that the covered entity communicate with them through a method different than normally used, or to an alternate address or phone number, or through electronic means. However, the covered entity may require the patient to provide an effective means of contact, such as an address, phone number, or e-mail address, and may require the patient to explain how any additional costs to the practice will be paid. If the patient is unable to provide this information, the practice may deny the request.

If the patient prefers or requests electronic communications, he or she should be reminded that the PHI may not be secure. They should use the Electronic Communication Form to acknowledge the risk involved in this communication format.

## Restrictions

Patients may request restrictions on how their PHI may be used. However, covered entities are not required to agree to the requested restriction. Patients may not request restrictions for uses required by law or for workers' compensation purposes. If the provider, using professional judgment, determines that agreeing to the restriction would not be in the best interest of the patient, the request may be denied.

Covered entities are required to grant a request for a restriction disclosure to the patient's health plan for a service or item for which the individual pays for totally out of pocket. This request must be made in writing. Another individual, such as a friend or family member, may pay for the service or item, but the patient cannot have another plan contribute toward the payment.

## Inspect and Copy

Patients have the right to access, inspect, or copy routine PHI. However, they do not have the right to access, inspect, or copy psychotherapy notes or records restricted by another law, such as CLIA. The right to access PHI is suspended during participation in clinical trials. The patient usually agrees to this prior to the participation, and access is restored at the end of the trial.

Access may be denied to personal representatives if the provider, using professional judgment, has reason to believe that the access would not be in the patient's best interest, especially if the provider suspects that the patient may be subject to domestic violence, abuse, or neglect, or if the access may in any way endanger the patient or another individual. Access will also be denied to individuals other than the patient if the patient has requested a restriction and that request has been granted. In the case of inmates, access may be denied if it may endanger anyone there or if it might compromise the work of the facility.

A request for access must be acted upon within 30 days. If the records are not easily accessible (stored off-site, for example), the practice may have 30 more days to allow the access.

If the request is denied, this must be documented and communicated to the patient. The patient may appeal. This information must be added to the patient's medical record.

We are required to provide the information in electronic format if available. The format (examples: e-mail, disk, flash drive) must be acceptable to the requesting individual. We cannot use media provided by the patient due to security risks, and cannot require the patient to purchase media from us.

We will charge the patient the allowable rate for providing copies in any format.

## Amendment

Patients may request an amendment to their medical record. The provider must review this request to determine whether the amendment is appropriate. The request may be denied -

- If the provider determines that the records are complete and accurate, the request may be denied
- If the correction does not apply to information in the designated record set
- If the information was not created by that covered entity (unless the provider who created the record is no longer available to make the correction)
- If it is part of a designated record set that is not available for access

The covered entity must act upon this request within sixty days. If it is unable to meet that response to the patient requesting the amendment, a copy of that response becomes part of the designated record set.

If the covered entity agrees to the amendment, the amendment must be made part of the designated record set and must be provided to any other agency or individual who was provided with the original information.

If the provider denies the amendment, the covered entity must communicate this information to the patient. The patient may submit a letter of disagreement and may request that the letter become part of the designated record set.

## Accounting of Disclosures

Patients have the right to request an accounting of disclosures – incidents involving the use of their protected health information. At this time, the changes proposed in 2011 (and in the HITECH rule) were not incorporated. However, we are following those at this time, as they are the most current guidelines available.

For paper charts, this excludes disclosures for the purposes of treatment, payment, and health operations. The request may go back as far as six (6) years from the date of the request. The report must include -

- The date of the disclosure
- The name and address (if available) to whom the information was disclosed
- A description of the PHI disclosed
- The purpose of the disclosure

The report must be provided to the requesting individual within sixty days of the request. A one-time extension is allowed if the situation prevents a timelier reporting, but the practice must explain in writing the reason for the delay.

If the accounting includes multiple disclosures to the same entity or individual, a summary log may be used. If the disclosure is for research involving more than fifty individuals, the accounting must include the research protocol or activity, a description and criteria of the activities or protocols, a description of the PHI disclosed and the date of the disclosure, the name and address of the sponsor and the researcher, and a statement that the information could not be used for any additional purpose.

For electronic health records, the accounting includes disclosures for the purposes of treatment, payment, and health operations. This request may go back only three (3) years from the date of the request. For practices using electronic health records prior to January 1, 2009, the compliance date is January 1, 2014. For those acquiring electronic health records after January 1, 2009, but before January 1, 2011, the compliance date is January 1, 2011. For practices that implement electronic health records after January 1, 2011, compliance is required upon installation. However, the Secretary of HHS may delay these compliance dates.

At the time this document was developed, the Secretary of HHS had not yet published the required information to be included in the accounting.

The following disclosures are exempted from all accounting reports.

- Incident to a permitted or required disclosure
- Pursuant to a signed authorization
- To people involved in the patient's care
- For purposes of national security or intelligence
- To correctional institutes or law enforcement agencies
- Limited data sets
- Prior to the covered entity's compliance date
- With a written statement from an agency requesting information for health oversight or law enforcement that states that including the disclosure would impede their activities

If the divorce decree requires the other parent to pay all or part of the treatment costs, court documentation is required for any guarantor address changes, otherwise, it is the authorizing/custodial parent's responsibility to collect from the other parent. Any account with a credit balance of less than <\$5.00> will not be refunded without specific request from the patient/debtor.

If we have to refer collection of the balance to a lawyer, you agree to pay all lawyer fees which we incur plus all court costs. In case of suit, you agree the venue shall be Davidson County, Tennessee. In addition, we reserve the right to deny future non emergency treatment for any and all debtor-related unpaid account balances.

### WAIVER OF CONFIDENTIALITY:

You understand if your account is submitted to an attorney or collection agency, if we have to litigate in court, or if your past due status is reported to a credit reporting agency, the fact that you received treatment at our office may become a matter of public record.

# NOTICE OF PRIVACY PRACTICES

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.**

The Health Insurance Portability and Accountability Act (HIPAA; "Act") of 1996, revised in 2013, requires us as your health care provider to maintain the privacy of your protected health information, to provide you with notice of our legal duties and privacy practices with respect to protected health information, and to notify affected individuals following a breach of unsecured protected health information. We are required to maintain these records of your health care and to maintain confidentiality of these records.

The Act also allows us to use your information for treatment, payment, and certain health operations unless otherwise prohibited by law and without your authorization.

- **Treatment:** We may disclose your protected health information to you and to our staff or to other health care providers in order to get you the care you need. This includes information that may go to the pharmacy to get your prescription filled, to a diagnostic center to assist with your diagnosis, or to the hospital should you need to be admitted. If necessary to ensure that you get this care, we may also discuss the minimum necessary with friends or family members involved in your care unless you request otherwise.
- **Payment:** We may send information to you or to your health plan in order to receive payment for the service or item we delivered. We may discuss the minimum necessary with friends or family members involved in your payment unless you request otherwise.
- **Health operations:** We are allowed to use or disclose your protected health information to train new health care workers, to evaluate the health care delivered, to improve our business development, or for other internal needs.
- We are required to disclose information as required by law, such as public health regulations, health care oversight activities, certain law suits and law enforcement.

Certain ways that your protected health information could be used disclosed require an authorization from you: disclosure of psychotherapy notes, use or disclosure of your information for marketing, disclosures or uses that constitute a sale of protected health information, and any uses or disclosures not described in this NPP. We cannot disclose your protected health information to your employer or to your school without your authorization unless required by law. You will receive a copy of your authorization and may revoke the authorization in writing. We will honor that revocation beginning the date we receive the written signed revocation.

You have several rights concerning your protected health information. When you wish to use one of these rights, please inform our office so that we may give you the correct form for documenting your request.

- You have the right to access your records and/or to receive a copy of your records, with the exception of psychotherapy notes. Your request must be in writing, and we must verify your identity before allowing the requested access. We are required to allow the access or provide the copy within 30 days of your request. We may provide the copy to you or to your designee in an electronic format acceptable to you or as a hard copy. We may charge you our cost for making and providing the copy. If your request is denied, you may request a review of this denial by a licensed health care provider.
- You have the right to request restrictions on how your protected health information is used for treatment, payment, and health operations. For example, you may request that a certain friend or family member not have access to this information. We are not required to agree to this request, but if we agree to your request, we are obligated to fulfill the request, except in an emergency where this restriction might interfere with your care. We may terminate these restrictions if necessary to fulfill treatment and payment.
- We are required to grant your request for restriction if the requested restriction applies only to information that would be submitted to a health plan for payment for a health care service or item for which you have paid in full out-of-pocket, and if the restriction is not otherwise forbidden by law. For example, we are required to submit information to federal health plans and managed care organizations even if you request a restriction. We must have your restriction documented prior to initiating the service. Some exceptions may apply, so ask for a form to request the restriction and to get additional information. We are not required to inform other covered entities of this request, but we are not allowed to use or disclose information that has been restricted to business associates that may disclose the information to the health plan.

- You have the right to request confidential communications. For example, you may prefer that we call your cell phone number rather than your home phone. These requests must be in writing, may be revoked in writing, and must give us an effective means of communication for us to comply. If the alternate means of communications incurs additional cost, that cost will be passed on to you.
- Your medical records are legal documents that provide crucial information regarding your care. You have the right to request an amendment to your medical records, but you must make this request in writing and understand that we are not required to grant this request.
- You have the right to an accounting of disclosures. This will tell you how we have used or disclosed your protected health information. We are required to inform you of a breach that may have affected your protected health information.
